June 2, 2009

Dear Colleagues:

Welcome to the fifth annual Resident Scientific Session. The purpose of the Resident Scientific Session is to celebrate and showcase the scholarly work of our residents.

Both completed work and work-in-progress will be displayed, and the residents are looking forward to this forum as an opportunity to interact with faculty and to discuss their work.

We appreciate your support!

Sincerely,

The Internal Medicine Residency Program

Dr. James N. Woodruff, Program Director

Dr. Ann Allie; Dr. Matthew Churpek; Dr. Keith Naylor; Dr. Katherine Thompson, Chief Residents
