Epic Healthy Planet Quality Data

1. Find Primary Care Provider Dashboard with resident (a-c)
2. Review resident panel size, criteria and quality data with resident. Any improvement goals? (d-f)
3. Review resident panel with Risk Scores and Lost to Follow-Up report. Any patients need to be scheduled? Removed? (g-h)

a. Click your dashboard tab

b. Click the dashboard type and search 'Primary Care Provider - Personal'

c. Select 'Primary Care Provider - Personal'

This dashboard contains a listing of patient panel reports, quality measure metrics, birthday...

Primary Care: Administrator

Summary Level: Registry

Primary Care Registry Population: 126,158 Patients

Last Refresh: 01:19:51 PM
Data collected: Tue 6/28 12:00 AM

This dashboard displays all patients who meet the criteria for the Primary Care Registry.

- The "Primary Care Registry" includes all patients that have had a face-to-face encounter in a primary care department within the past 4 years.
- These patients are then attributed to specific providers and clinics on the basis of the EPIC PCP designation.
- Patients are also labeled as either "active" or "inactive" based on their age and the time since their last visit. Data on "inactive" patients is only viewable in the "Lost to Follow-up" report.
- This registry has a prerequisite of the Wellness - ALL registry.

- The "Primary Care Registry" includes all patients that have had a face-to-face encounter in a primary care department within the past 4 years.

- Patients are attributed to specific providers and clinics on the basis of the current EPIC PCP designation.

- Only active patients are included in Quality Metrics and My Reports.

- Active patients are determined by age and date of their last appointment within Primary Care

- >> Age 0-36 months with a visit in the past 8 months
- >> Age 37 months - 10 yrs with a visit in the past 18 months
- >> Age 11yrs - 64 yrs with a visit in the past 26 months
- >> Age 65 and up with a visit in the past 14 months

- Data on "inactive" patients is only viewable in the "Lost to Follow-up" report.

d. Review # pt in resident panel

e. Review criteria for active patients
